

COVIHELP

AN APP FOR THE PEOPLE BY THE PEOPLE

ENCIPHER_AY_COVID19

Solution

Covihelp an android app.

ENCIPHER_AY_COVID19

Purpose

To provide te current genuine and authentic statics related to Covid 19 Situation such as:

- > Total Cases
- > Active Cases
- > Total Vaccination done
- > Total Deaths
- > Location of Vaccination center
- > List of Oxygen Supplier nearby.
- > List of other essential goods like bed availability, ambulance, remedies and helpline number.

Frontend

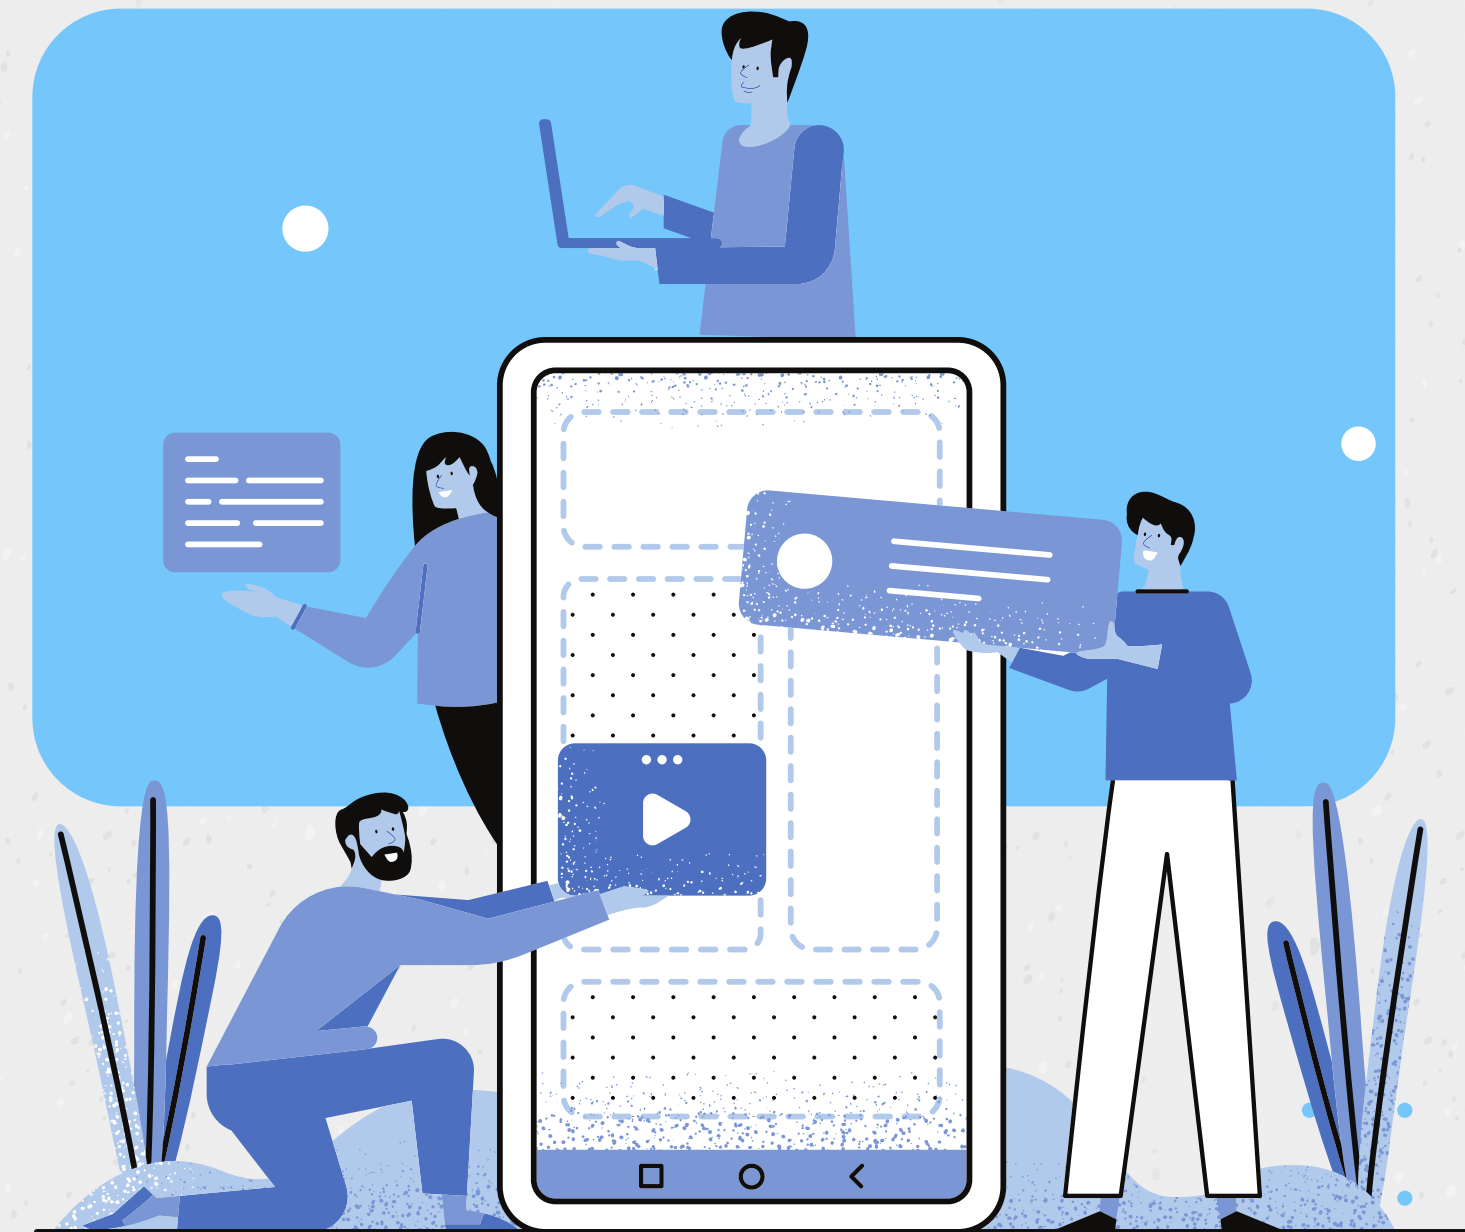

Minimal Frontend to ensure faster and easier access of data.

The Design was created on Adobe XD

The Data related to the covid cases is being fetched from an API which is getting Updated regularly.

While the data related to the vaccination are being displayed by the covid help desk by the Indian gov.

We have implemented that desk in our app.

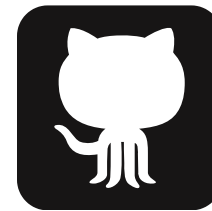

ENCIPHER_AY_COVID19

THANK YOU

Our Team Is Obligated To Be Able To
Contribute Into The Problem That
Is Most Relevant In Today's
Scenario.
